DETAILED ACTION

Election/Restriction

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

2. Group I, claim(s) 1-19, 62-65, 70-71, drawn to porous polydendrimer material.

Group II, claim(s) 20-31, 33-48, 50-58, 60-61, 66-69, 72-75, drawn to a method for producing porous polydendrimer material.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical feature in inventions of Groups I and II is a porous polydendrimer. This feature is known in the prior art (see US 5,378,790; US 2003/0012942; Asefa et al. *Stud.Surf.Sci.Catal.*, 2002, 141, 1-25; Inagaki et al *J. Am. Chem. Soc.*, 1999, 121, 9611-9614).

4. Since the common technical feature, such as porous polydendrimer, is taught by US 5,378,790 (col. 7-8; col. 2, lines 1-65; cited in IDS filed on 02/27/09), US 2003/0012942

Art Unit: 1796

(Abstract), **Asefa et al** *Stud.Surf.Sci.Catal.*, 2002, 141, 1-25 (Abstract, page 5; cited in IDS filed on 02/27/09); **Inagaki et al** *J. Am. Chem. Soc.*, 1999, 121, 9611-9614 (Abstract, p. 9614, col. 2; cited in IDS filed on 02/27/09), therefore, the common technical feature fails to define a contribution over US 5,378,790, US 2003/0012942, Asefa et al. *Stud.Surf.Sci.Catal.*, 2002, 141, 1-25; Inagaki et al *J. Am. Chem. Soc.*, 1999, 121, 9611-9614, and therefore, fails to constitute a special technical feature and hence there is lack of unity between the claims *a posteriori* (see MPEP 1850-II).

5. A telephone call was made to Mr. Ralph A. Dowell on 08/06/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
